

## UCAS Covid-19 Contextual Statement

Longdean School is a mixed comprehensive in Hemel Hempstead, drawing most of its students from the Dacorum area. The Sixth Form has around 200 students.

During the spring lockdown 2020, students were provided with a combination of TEAMS™ lessons and work via satchel:one Show My Homework™. Due to limited technology access, not all students were able to attend TEAMS™ lessons. From June, students were taught with one 90-minute face to face lesson per subject a week and a continuation of TEAMS™ lessons.

Since September we have not yet had a closure that has affected multiple year 13 students, although individuals have had to isolate. When isolating, students have been invited to join in-school lessons via TEAMS™.
